

Gyroscope, Don't Look Now But I Think I'm Swea

You're such a quiet, quiet achiever

I hope she wakes up
Really hope she wakes up
I can't remember what she said
I'll take a bullet to the head
What a joke, get good nights rest?! I barely get required sleep
He's a gun I confess, he's a gun

So quiet, quiet achiever
You make it out of wood and snow
Just let it go, let it go

I hope she wakes up
Really hope she wakes up
I can't remeber what she said
I'll take a bullet in the head
Here's a joke: i'm blessed that i can still get some sleep
He's a gun, it's a test, it's a gun

So quiet, quiet achiever,
you make it out of wood and snow
Just let it go, let it go

So quiet, quiet achiever

I hope she wakes up
Really hope she wakes up
I have nothing more to say
