

Gyroscope, Misery (acoustic)

How am I supposed to see
since you stole my eyes from me
I took you to miniature world
you still felt small

Misery misery
misery misery

Simple it is simple Simple is simple
I forget every single word you tell me
I forget every single word you tell me
Simple it is simple Simple is simple
Ba-da-da...

Forget the things I'm missing
This life away I'm pissing
You amount to me You account for me

Misery misery
misery misery

Simple it is simple Simple is simple
I forget every single word you tell me
I forget every single word you tell me
Simple it is simple Simple is simple

I forget every single word you tell me
I forget every single word you tell me
Simple it is simple Simple is simple
Ba-da-da...

Oh I let you down oh i let you down
Oh I let you down
I fucken let you down

I forget every single word you tell me
I forget every single word you tell me
Simple it is simple Simple is simple

I forget every single word you tell me
I forget every single word you tell me
Simple it is simple Simple is simple
Ba-da-da...
