

# H-Blockx, Rainman

Your silence breaks my mind now  
Every chance i see  
Your eyes that look so straight thru  
Thru myself and part of you

You can't help your feelings  
Hard to keep for yourself  
Your strength has been diminished  
Never knew your psychic health

You're wrong - not right  
You judge yourself in pain  
Maintain revealing less than what's  
Behind these eyes where there's just rain

Chorus:  
Rainman

Sympathetic views restrained  
Till the end of the circle  
Seems to be the only saint  
What life can offer you

Tomorrow is another day  
You will get up and feel  
The fear that makes your blood run cold  
But you believe it's predestiny

You're wrong - not right  
You judge yourself in pain  
Maintain revealing less than what's  
Behind these eyes where there's just rain

Chorus
