

# H-Blockx, Yesterday

As if it was yesterday, I still remember  
Everything we did on them september days  
We dressed and messed up the next club  
Did not stop to cut school a bit much  
We rocked road with our voice on the radio

We said hello, hello, hello, hello  
Hello, hello, hello, hello

As if it was yesterday,  
as if it was yesterday,  
as if it was yesterday,  
I still remember,  
to do it again, do it again, do it  
to do it again, do it again, do it  
to do it again, do it again, do it  
as if it was yesterday

In the mist of our miseries do you remember  
Those december days, that were the tender days  
It was hard on the mood and the food was  
Too big to chew and the crew was  
Split 'till the news on the radio

We said hello, hello, hello, hello  
Hello, hello, hello, hello

As if it was yesterday,  
as if it was yesterday,  
as if it was yesterday,  
I still remember,  
to do it again, do it again, do it  
to do it again, do it again, do it  
to do it again, do it again, do it

I remember the start in 1990  
Hitting the roads in 1991  
I remember KC and the uplift mofo partyplan  
Yeah I never stopped to believe in one thing  
Not even in the chaos of 1996  
I will always believe in each and everyone in this  
I salute the ones I miss

As if it was yesterday,  
as if it was yesterday,  
as if it was yesterday,  
I still remember  
As if it was yesterday,  
as if it was yesterday,  
as if it was yesterday,  
I still remember  
to do it again, do it again, do it  
to do it again, do it again, do it  
to do it again, do it again, do it  
As if it was yesterday
