

H.I.M., Dead Lover's Lane

Despair has a face and all these wounds remain unhealed
Blessed to kill and enslaved our own hearts are our love's will
Thrilled to start all over again

Crawl down dead lovers' lane
The maze of memories stained
And suck the blood right out of my heart...

Fear has a name written on unhallowed ground with dead leaves
Those words never fail to feed the hunger that dreams
Our needs beyond god's grasp

Crawl down dead lovers' lane
The maze of memories stained
And suck the blood right out of my heart
Scream out love's name in vain
Embrace the pain again
And lose yourself alone in the dark
On dead lovers' lane...

Crawl down dead lovers' lane
The maze of memories stained
And suck the blood right out of my heart
Scream out love's name in vain
Embrace the pain again
And lose yourself alone in the dark
And suck the blood right out of my heart
On dead lovers' lane
Right out of my heart
Dead lovers' lane
