

# H.I.M., In Love And Lonely

In love and lonely  
In love and lonely

I'm not with you my baby  
Just to see you cry  
I'm in love with you  
Not the tears in your eyes

I can't remember  
The last time you smiled  
Oh I know how it feels  
I know what it's like

To be  
In love and lonely  
In love and lonely

Don't know what to do my baby  
It's not alright  
This can't be the end  
The time to say good bye

No I won't walk away that easy  
After all this time  
Oh you know how it feels  
You know what it's like

To be  
In love and lonely  
In love and lonely

Oh you know how it feels  
You know what it's like  
You know how it is  
But you just can't stop crying

In love and lonely  
In love and lonely

In love and lonely  
In love and lonely
