

# H.I.M., Love In Cold Blood

Serpentine loves thighs wrap around me in search for death  
Drenched in blood the adored and beloved will give in to

Love in cold blood, breathe me in sweet suffering  
Love in cold blood

Love's feline eyes in darkness shine on her web  
Demonised with divine insight we draw our last breath

Love in cold blood, breathe me in sweet suffering  
Love in cold blood, put me out of my misery  
Love in cold blood, breathe me in sweet suffering  
Love in cold blood

Darling take me home to the castle made of skulls and bones  
Sing me a song to remind me where I belong  
In your arms. My love in cold blood

Love in cold blood, breathe me in sweet suffering  
Love in cold blood, put me out of my misery  
Love in cold blood, breathe me in sweet suffering  
Love in cold blood

Darling take me home to the castle made of skulls and bones  
Sing me a song to remind me where I belong  
In your arms. My love in cold blood
