H.I.M., Sweet Pandemonium

Today Tomorrow seems so far away And the wait in vain

So safe In the blinding light of love unchained In yesterday's grave

The truth that could set souls free Is buried within sweet pandemonium Concealed by disbelief The riddle stays veiled in sweet pandemonium

Afraid That everything remains unchanged In this fragile dream

Ashamed
Of the shattered remains of promises made

The truth that could set souls free Is buried within sweet pandemonium Concealed by disbelief The riddle stays veiled in sweet pandemonium

Drained by the anger and grief

Fazed by the envy and greed

The secret cries for a release

The lucidity hidden deep in sweet pandemonium

The truth that could set souls free Is buried within sweet pandemonium Concealed by disbelief The riddle stays veiled in sweet pandemonium x2
