

H.I.M., Too Happy To Be Alive

We're still breathing, this can't be love
Baby we're trying, shed a few tears more
Oh, we keep on running, just to get caught
And we know this is, exactly what we want, uh huh ohh

We fear for the best, and hope for the worst
(Too happy to be alive)
What love's life's blessed, love's life's cursed
(Too happy to be alive)

We fear for the best, and hope for the worst
(Too happy to be alive)
What love's life's blessed, love's life's cursed
(Too happy to be alive)

Now we feel it coming, piercing our hearts
Fingers crossed and we're praying, nothing goes wrong
And finally it's happening, just a knock on our door
Our hearts are beating, oh, it's just begun

We fear for the best, and hope for the worst
(Too happy to be alive)
What love's life's blessed, love's life's cursed
(Too happy to be alive)

We fear for the best, and hope for the worst
(Too happy to be alive)
What love's life's blessed, love's life's cursed
(Too happy to be alive)

[Solo]

We fear for the best, and hope for the worst
(Too happy to be alive)
What love's life's blessed, love's life's cursed
(Too happy to be alive)

We fear for the best, and hope for the worst
(Too happy to be alive)
What love's life's blessed, love's life's cursed
(Too happy to be alive)

Too happy
Too happy
(Too happy)
And we're too happy to be alive
And we're too happy to be alive
'Cause we're too happy to be alive
Ohh my love, so...
