

H-Town, Beggars Can't Be Choosey

Begs can't be choosey

Yeah all right y'all oh oh oo alrighy listen

[Verse 1:]

Since the very first day I fell in love

It's a wonder how I knew what love was

All the times I played so many hearts (it's part of changing into a man)

Runnin in and out relationships

Never crossed my mind of commitment

Always thought that fad was definitely of the past

And never before me

[Chorus:]

There's so much I'd rather do

Like be in my bed gettin fresh with you

But instead I have to do with bein content with tongue kissing you

Know I'm wrong to lust for you

I'm out my mind girl wanting you

So many things I'd rather do

But beggars can't be choosey too

[Verse 2:]

Girl it comes to mind thousand times how to get inside I can't lie

Just to be with you baby (a fairy tale to me)

No roly poly quick screw you

No hanky panky less you want me to

I said I'll do what you say say you want me to do

How can I choose a mood when beggin you

[Chorus/Ending:]

I changed my style from runnin around

I just want to be a real man and stay home

Because I can't be choosey

Bein promiscuous is not for me

If I will be a freak I will be a freak for me lady

By time you take em off I'll be still ready

Oh come on show are you ready ready

It seems like you're nice and ready

Alright alright alright
