

H-Town, Lick U Up

Stop

Let's

Take this real slow

Let me break it down so that you can know

I'll do things

You never imagined me to do

I'll lick you all over

As the sweat

Pours down on you

Girl I want

To lick you up and then down

Come on and let me do

What I can do

Come on

And tell me what you need

Cause I just want to

Taste the sweetness

From your body

Let me

Come on and let me lick you up

Come on and let me lick you down

Come on let me lick you around

And then

You will feel my fire let me lick

Come on and let me lick you up

Come on and let me lick you down

It'll be right

It'll be right

Come on

Every

Little touch

That I make

Will be so nice girl

You know what I'm gonna do

Lady, lady, lady, lady

First I'll start from your toes

And then I'll make my way to your thighs

I'll make you so wet that you will never let

Me go

How all about

Go Shazam

GI

These are the things

That will make you

Feel so right

Oh oh oh oh oh all night

Girl I want

To lick you up and then down

Come on and let me do

What I can do baby

Come on

And tell me what you need girl

Cause I just want to

Taste the sweetness

From your body

Come on and let me lick you up (Come on and talk to me)

Come on and let me lick you down

Come on come on baby

Let me know what you want

And I'll just do it

Come on and let me lick you up (I'm real man babe, I'm so real baby)

Come on and let me lick you down

Yeah baby (Cause you know it baby)

I've said all I'm gonna say
