

H-Town, Nothin In Common

[Chorus x2]

It's not the same no more

yes, we had our days

I dont wanna play no more

say, we have nothing in common

when i first saw you

you blew my mind the finnest thing in sight

Super woman, superstitions, infactuation just cant be right

Had a walk that cast a manuasl look

and sho' nough caught my eye

on a scale from one to ten the classy body i cant deny

And i felt a passion from your lips it's sweet soft and saucy hot
