

H Two O, Thicker than water

My family looks out for me like friends
Our story never ends
We've run into the fire
And somehow water comes to save us
There are so few we can depend on
With blood there is an honor
We behave like we don't care
But it's so deep inside
It's more, more than you can see
It's thicker than water
It means more, so much more to me
It's thicker than water
We've all been struggling since I was three
How happy can we be?
We've turned some bad times into good
Always knowing where we stood
HARDCORE has led us to the water
We get by on H2O
But remember what is stronger
And we let it flow
It runs so thick inside my veins
Through all the heartache and the pain
And everything I've come to be
It's more than you can see
