

H2O, Day By Day

s

what else can i say, that's not been said
each day i rise up, thinking i've wised up
i realize that i don't know shit

chorus

i don't know where i'm gonna be - day by day with me
i don't know where i'm gonna land - day by day with me
my five year plan, has turned to ten
and it's all gonna happen
again millenniums coming, better start running
straight for a place in history
so fast the past went, none of our time
spent wondering what's gonna happen to me

chorus

again and again through time i see - day by day
i'm going through changes to find what's best for me - day by day
i know where i am and i know where i'm from
so i got to face the future and take it as it comes
