

# H2O, Static

I can hear it on the line  
While you profess that everything is fine, but  
Theres a static in your voice  
And all I wanna do is read between the noise.  
I hear you, but I cant hear you  
I feel like somethings wrong again  
And now Im losin my friend  
Have we been disconnected again?  
Im feelin disconnected  
Have we been disconnected again?  
Im feelin disconnected  
Tryin to believe in what you say  
I hear a clickin thats given you away, and  
I wanna be there when youre down  
Leave a message when Im not around, cause  
I know you but I dont know you  
You can not tell me whats inside  
Why cant you swallow your pride?  
Have we been disconnected again?  
Im feelin disconnected  
Have we been disconnected again?  
Im feelin disconnected  
I wanna know what its about (what its all about)  
Cant understand when youre cuttin out, but (cuttin out)  
Youre pretendin that its clear  
Use the static when Im drivin near so,  
I hear you, but I cant hear you  
I feel like somethings wrong again  
And now Im losin my friend  
Have we been disconnected again?  
Im feelin disconnected  
Have we been disconnected again?  
Im feelin disconnected  
I hear you, but I cant hear you  
I feel like somethings wrong again  
And now Im losin my friend
