

# Haddaway, Another Day Without You

There are moments in our lives  
When everyting goes right  
And we're making love  
Endless love  
And then we have all these days  
Where we go separate ways  
A heart full of pain  
And no one's to blame  
It's just another day  
Without you  
Without you  
It's just another day  
Without you  
Without you  
Many times we throw away  
What we regret teh next day  
And we say Good-Bye  
Forever Good-Bye!!  
And I don't know wht it is  
Just a game of hit and miss?  
I wonder how long  
We can go on?
