

# Hades Almighty, Dream Traveller

RISE!!

high above the crystal sea  
the lake of fools

FLY!!

fly on the wings of your soul  
invoke the daemon that dwells at the core of your soul  
the beast of your spirit  
gaze through the eye of the beast you have become  
through the twisted gates of the infinite

FEEL!!

feel the force you possess  
touch the stars  
sail the silver starshine  
in the warship of your mind  
the spirit world, the astral crown  
your power has no bound  
"Rosepetals. thrown before my feet by the angels  
Lillies.. thrown before my feet  
by the black ones, fallen from grace"

DANCE!

dance in the dreams of the dying

PRAY!

pray in the dreams of the dead  
you are one with the mist of the universe  
one with the essence of all  
ride the dragon. ride the dragon  
through the tangled web of the mysteries  
of the human mind
