

# Hades Almighty, To Know One

(Music - Fuhrman)

(Lyrics - Tecchio)

Now we don't  
Have to worry away  
About our future  
Dead at four months old

Was it all for naught?  
Who would have ever thought?  
To know one is to know  
Why all our life's blood flows

She always had the time  
To listen to you whine  
About your problems  
Like she had none of her own

When time runs out for those close to us  
It seems surreal, a truth you can't trust

When all the dust has settled at last  
You pull up your stakes and say good-bye to the past

So now we don't have to worry much  
About anything... Anymore
