

Haemorrhage, In the Name of Sanity

far beyond the bounds of the medical profession
where lunatic inmates are the victims of the sane
When illness is health, medicine becomes perversion
Emotions distorted by the therapy of pain

medical debauchment
in the name of sanity

Methods of torture and psychiatric humiliation
humans considered specimens to dissect
Cruel lobotomy - surgery without sedation
Medical failures in their sick experiments

medical debauchment
in the name of sanity

tyrants of pathology... massive mutilation
clinical atrocities... exirpation of the sick

...mental wounds inflicted with scorn
...you shal bleed to sanity

bear the electroshock
brain dissection undergone
slice the bloodied scalp
cerebelum torn apart
lacerated brain lobes
crushed with my latex gloves
human guinea pig
convulsin in agony

...mental wounds inflicted with scorn
...you shal bleed to sanity
