

# Haemorrhage, Set the Morgue on Fire

Night has come, It's the right time to escape  
They are slept...they will never awake  
Dark Revenge...I will destroy this place  
Burn it down and run away!!

I'll finish this insanity  
Incendiary hate inside of me  
I will incinerate the dead  
A part of them will never rest

Rising flames on the mangled organs  
Vile stench of the burning flesh  
Roasting limbs - Carnal Crematory  
Melting Skin dripping from the dead

I hear the screams of agony  
Their suffering is pleasure for me  
Fire will celebrate their death  
I hope they know the real pain

Bodies explode...violent deflagrations  
Charred Remains...Carbonized rests  
I behold the Blazing Human Inferno  
Praying for the souls of the dead

Set the morgue on fire!!

Fuck you morticians, burn in your own hell  
I really wish you a slow and painful death  
I want destroy this sick human inferno  
Reduce to ashes this temple of terror
