

# Hagen, Sundown

Sundown hurry on my way  
Sundown please come back and stay  
Sundown satisfy my need  
Sundown set me free

Spare my weary eyes  
From the blinding lights  
Let the full moon rise  
Bring on the night

Sundown take away the pain  
Sundown make me whole again  
Sundown I move better in the dark  
Sundown put out the spark

Spare my weary eyes  
From the blinding lights  
Let the full moon rise  
I am waiting  
Waiting for the night  
Oh dim the lights
