

HAIM, Lost Track

Tryin' to get on top
But it's never easy
Mastered my own luck
But it wasn't easy
I'm tryin' to feel alright
Around all these people
I try, but I'm just numb
This time

Deepest cut that I can't feel
Found a grip on the steering wheel
I know a piece's stuck
You can sit down if you don't mind me standin' up (Mind me standin' up)
I know I was too good to pass (Too good to pass)
So me and you caused a chain reaction (Chain reaction)
I'll take the smallest crumb
But I'll never get back what I lost track of

Laugh when I'm still cryin'
Yeah, you know the deal
Burn but it's still fine (Huh)
Yeah, you know the deal
Can't redeem my love
That's such a steal
But you can't say I'm not tryin'
This time

Deepest cut that I can't feel
Found a grip on the steering wheel
I know a piece's stuck
You can sit down if you don't mind me standin' up (Mind me standin' up)
I know I was too good to pass (Too good to pass)
So me and you caused a chain reaction (Chain reaction)
I'll take the smallest crumb
But I'll never get back what I lost track of

Oh, I'll never get back what I lost track of
I'll never get back what I lost track of
I'll never get back what I lost track of

I'll never get back what I lost track
I'll never get back what I lost track
I'll never get back what I lost track
I'll never get back but I've lost track
