

# Haircut 100, Fantastic Day

Well there's a great amount of strain  
About getting on that train  
Every day and every night  
The only thing that makes it good  
Is seeing my favourite sight  
Prance and flutter stride down that green escalator yeah  
When I'm getting off my train  
And my love is on my brain  
Every day and every night  
The only thing that makes it right  
Is seeing my favourite sight  
Crying in the night with the summer in her eyes tonight  
Fantastic day today  
Fantastic day  
Well I can find a funny feeling  
Funny as a smile  
When your mouth is all dry  
Why?  
Fantastic day today  
Fantastic day  
Well it's a fantastic day today  
Well it's a fantastic day  
I know I've lost myself again  
True love has past me by  
I tried to shave myself  
Be a happier guy  
Night and day  
I can see it in your eyes  
Now the summer never smiles  
On a happy honey day  
Am I being in the way?  
When I'm so in love with you  
I can't sit down and I cry in pain  
With night and day  
Fantastic day today  
Fantastic day  
Well it's a fantastic day today  
Well it's a fantastic day
