

# Haircut 100, Infatuation

Plan for your leisure  
Through the long cool night  
That sleeps into day  
Gave you part of my paradise  
But then you locked me up and flattened the key  
How much more can I give you?  
All my love is not enough  
Don't look back  
It never seems the same again, oh no!  
Infatuation!  
Infatuation!  
Taste of the moment  
Love on rocks you always mix it so well  
Lap it up, just like your new found good boy  
Pat my head so I'll never tell  
How much more can I give you?  
All my love is not enough  
Don't look back  
It never seems the same again, oh no!  
Infatuation!  
Infatuation!  
Heart made to measure  
Lose the thread just when I'm taking it in  
Heads or tails, you're such a gamble  
Now it's finished don't you start up again  
How much more have I to give you?  
Is my love just not enough?  
Don't look back, it never seems the same again, oh no!  
Infatuation!  
Infatuation!
