

# Halcali, Baby Blue!

Oh~ baby blue! uh-oh-oh, uh-oh-oh-oh (x4)

Fu~ (let's go) fu~ (ah! let's go)

Fu~ (c'mon let's go) fu~ (ah!)

Wake up to a blue morning

Start of the weekend, normally i'd be makin' a racket

Though i like that boy, i can't stop thinkin' bout

It's not gonna mean he likes me back

He's got deepset features like ken hirai

And sky blue eyes like anzenchitai

Even when he completely ignores me,

I can't forget him, at this rate i'll...

Lo.lo.lo.lo.lo.lo.

Lots and lots and lots of cheese! glimmering golden teeth

Stiffen up the body and do a back spin

With this flow let's go on galaxy express 9-9-9

Too damn ill, doctor stop! you don't stop!

A baby blue friday, eventhough the weekend's just starting!

Can't hide how i'm feelin', somebody help!

At this rate i'm gonna be lonely lonely

A baby blue friday, eventhough the weekend's just starting!

Can't hide how i'm feelin', somebody help!

At this rate i'm gonna be lonely lonely

How can i say, a bit more openly

How can i say, i need you, really

How can i say, it's true

How can i say, oh yeah!

Another blue morning

Start of the weekend, normally i'd be ready for takeoff

I love that boy so much

But that doesn't mean this time he's gonna love me back

I shouldn't forget,

The words he said when he left,

Even if i get my makeup perfect,

I can't smile even just to be polite, good bye.

Lo.lo.lo.lo.lo.lo.

Love and love and love and peace!

A spinning compact disc,

Heartbeat racing, help me please!

Feeling's all tight, breaking my heart you know?

Too ill, doctor said "i can't stop"

How can i say, more openly

How can i say, i need you, really

How can i say, it's true

How can i say, oh oh o~i oh!

When i near mr cool, it's a miracle

A neighborhood scandal, everything gets pink

Pink ja-ja-jack! getting ahead of the words.

When it's just the two of us, i get flustered

Lost for words, dj! with a one and a two and a...big emotion

Play it, come again! feel it on the skin,

Flawless, you're just my type, but i got no chance

In his heart, i don't even exist.

It's like that yo! the rain comin' down yo!

A blue lure of tears (too much?) \*5 it's like that yo! the rain comin' down yo!

A blue lure of tears

Feeling goes cold, (weeping), body goes cold (weeping)

Good job! (ah!)

Raincheck on the promise, oh my god!

Eventhough i rushed out here, it's always like this

My baby maybe surreal and march to the beat of his own drummer

But he's my one and only!

Raincheck on the promise, oh my god!

Eventhough i rushed out here, it's always like this

My baby maybe surreal and march to the beat of his own drummer

But he's my one and only!
