

Hale, Blue Sky

When do stars fade their lights?
Does the moon and the sun make it right
For you the world maybe
Like an endless storm chasing a mystery

Is there hate in your heart?
Does your body drop and tell you to stop
Loving you or loving me
When it all falls down you just sing with me

Coz there's a blue sky waiting tomorrow
Waiting tomorrow, shining and shimmering
A blue sky waiting tomorrow
Waiting tomorrow
Maybe it's all we need

Oh, don't you wash away that smile
You just look out the window and see the light
It's beautiful to be alive
It's wonderful to live a life

The sun is sure to shine
For you and me for everyone
So don't be sad it's just the start
Of a new beginning in your life

Rain will keep on pouring
Some things you can't control
And while the sun seems far and hard to hold
It will unfold

There will always be a blue sky
A blue sky waiting tomorrow
