

# Hale, Over And Over (And Over Again)

I'm sick and tired of this pretending  
I thought we had this understanding  
I come to you  
You come to me

You're so uptight  
I'm going insane  
But it's never enough  
I keep on wanting you  
More and more each day  
(I really want to do this)

Over and over  
Over again

The night is long  
I'm feeling restless  
I'll bring you down here with this sickness  
There is no cure there's no escaping

The end is near  
Were almost done  
But it's never enough  
I'll keep on wanting you  
Tonight and tomorrow  
(This moment will never ever be)
