

Hale, Requiem

It's too late
It's too soon
For you to go
Away from us

Where are you going?
When will I see you again?
If I could just go with you
But we all die alone

I wanna be brave
I wanna be brave like you
You went into darkness
You fell in darkness
And you will carry on

Did he open the gates?
He let you in
So that you can see me
Down here

Please don't worry
We're all doing fine
Taking it slow
We are so proud of you
