

# Hale, This Is A Happy Song

I believe I'm falling  
I believe I'm falling for you  
This is now or never  
Cause everyday I'm longing for you

Every night, everyday, every step of the way  
Every move that you've made, every word that you say  
I'm giving you a warning  
This is the incredible truth

Everytime

And I guess  
This is love  
That I feel  
And I'm falling for you  
You're the song  
In my head  
And it feels  
That I'm falling for you

Floating like a feather  
Pull me down I'm stuck in the clouds  
There's no stormy weather  
That can stop me from coming to you

Every night, everyday, every step of the way  
Every move that you've made, every word that you say  
This is my fair warning  
Believe me now I'm telling the truth

And I know  
This is real  
What we feel  
I have fallen for you  
You're the warmth  
In my heart  
Now I'm sure  
I have fallen for you

This is love  
This is love  
This is love
