

Hale, Tree House

Listen to the midnight scream
Silent like a submarine
Love is what you wanted
Can I get some lovin'?

When I see you next to me
I feel it like a symphony
Words of every novel
Closer every moment

And I've been
So stolen
And I won't let you fall
In this tree house

Come share this blanket with me
Well watch this crazy parade
Stars from every planet
I glance at every moment

Leave your worries here
Forget everything
The wind is all we need
All we need

And I've been
So stolen
And I won't
Let you fall
In this tree house
Lie with me
Climb with me
For you are safe here now
In this tree house

Don't be afraid you can let go
I'll catch you then I'll break your fall
I'll be your
I'll be your
Safety net
