

# Halford Rob, Slow down

Let it be  
Still my anger  
Bring me peace  
From my temper  
I'm trying every way I can  
I'm doing wrong I understand  
Let it be - slow down - watch the pressure fall  
Bring me peace - slow down - I can't have it, I can't have it all.  
Break the strain  
Feed my hunger  
Tell my mind  
To be stonger  
I've got to move and make it real  
I've got to make myself a deal  
Break this strain - slow down - give up what I crave  
Tell my mind - slow down - watch what I can, watch what I can save.  
Will I rise  
Out of shadow  
Staying calm  
Felling hollow  
I'm here to give me one more chance  
That choice is resting in my hands, yeah...  
Let it be - slow down - watch the pressure fall  
Bring me peace - slow down - I can't have it, I can't have it all.  
Break this strain - slow down - give up what I crave  
Tell my mind - slow down - watch what I can, watch what I can save.
