

Halifax, Our Revolution

We are famous faces
We are legends of the underground
The west coast is dying, but we're still getting down
Hollywood's got stilettos
Walking egos in skirts
Setting sunset on fire
We only do this cause it hurts

So sit back, waste your life away
Well I want to hear you say...

Hell yeah
Get up, get up, get up, do you believe in
Hollywood restart our revolution
Hell yeah
Get up, get up, get up, and sing it
If rock n' roll is dead, the dead will come undone

They say I kiss to kill
I just do it for fun
The stage girls shake to make my heart come undone
Glamour girls and whiskey
And Snow White's already kissed me
The sirens sound, the boys are out, take over this city

So get up, dance the night away
Well I want to hear you say...

Hell yeah
Get up, get up, get up, do you believe in
Hollywood restart our revolution
Hell yeah
Get up, get up, get up, and sing it
If rock n' roll is dead, the dead will come undone

Hell yeah
Get up, get up, get up, do you believe in
Hell yeah
Get up, get up, get up, get up

Hell yeah
Get up, get up, get up, do you believe in
Hollywood restart our revolution
Hell yeah
Get up, get up, get up, and sing it
If rock n' roll is dead, the dead will come undone
