Hall & Oates, Don't Blame It On Love

(Words by Daryl Hall & Daryl John Oates Music by Daryl Hall)

Mighty high or low down Change around the words and they say Low is not the last one Cause you know, if you know You'd be learning from a hit lip Success is sitting fat and limp But don't blame it on the system It's only natural only natural Blame it on yourself Blame it on me But don't blame it on love Who d'ya think your heroes are? Failures everyone But you all love them for their innocence When they fall when they fall The loser's always deified Winner only takes home the prize But don't blame it on the system It's only natural it's only natural For you to blame it on yourself Blame it on me But don't blame it on love
