

# Hall & Oates, Don't Change

I turned around and you were standing there  
More than a little high  
More than a little crazy  
So beautiful I had to stare  
And I knew you had the power to change me  
Scarlet woman, you've come for me  
Your timing's great, 'cause I've been  
Waiting so long  
The only thing I want to say  
Now that you've got me, please-  
Don't change my life

You know I love you but I hate your friends  
They got dollars but they ain't got sense  
If the time comes and you go away  
I hope I've changed and yet stayed the same  
Scarlet woman you've come to me  
Your timing's great 'cause I've been  
Waiting so long  
Only thing I want to say  
Now that you've got me, please-  
Don't change my life
