

# Hall & Oates, Everytime I Look At You

Everytime I look at you, I can't believe what you did to me  
You had me thinkin' we was all right, then you pulled your trick  
and walked right out on me  
You had me thinkin' we were in the sky  
today I'd like to lay down and die

If you've gotta be leavin', well that's swell  
I think it's fine girl, you found what you want  
So it's goodbye girl, yes, no?

Everytime I see your face, I can't believe how you lied to me  
so get your laundry out of my place  
go and live with someone else for free  
You had me thinkin' we was in the sky  
today I'd like to lay down and die

Baby it's goodbye  
it's goodbye
