

Hall & Oates, Want To

Baby, you're only a sleeping beauty for a little while

Hoping no prince heats up your day

That you can be lonely all this time in unbelievable

Playing deaf and dumb, just afraid

Chorus:

Gotta be high when you're walking an fire

If you Want To

Gotta be cool when you're breaking the rules

Because you Want To

Gotta be strong, really got to move on

I know you Want To

Gotta be true, you do what you do

Because you Want To

Don't cha Want To

And you wanna babe

I know you

Go with your urges, holding back is just a puppy show

You don't need so be-bop to play

Whatever you think your friends might say is immaterial

What they don't know might show you the way

Chorus:

Gotta be high when you're walking on fire

If you Wart To

Gotta be cool when you're breaking the rules

Because you Want To

Gotta be strong, yeah you carry on

I know you Wart To

Gotta be true, you do what you do

Because you Want To

Don't cha Want To

You know you Want To

Because it feels right

Because it won't bite

Now that you've found your way around, you want to run to me

Hey don't waste no time

See that sleeping beauty waking up beside-a me

Making me feel so good just to see you smile

Chorus: (repeat)

Gotta desire when you're walking on fire

I know you Want To

Gotta be free when you're walking with me

Don't you Want To

Maybe it's time to do what you do

Because you Want To

Gotta be high when you're walking on fire

Don't cha Want To
