

Hall & Oates, You'll Never Learn

You'll never learn

You who cheat

You who lie

Now don't you hate you in the morning

You'll never learn

You be heat

You be ice

You're getting love mixed up with hunger

You'll never learn

No you'll never...

You could change

You're not too far gone

Life's such a pain - ain't it -

No dying's no fun

Mistakes you've made

You'll make again and agein

No you'll never learn

No No I know you're never never gonna learn

No no never

Razor queen

Suicide

You've got some twisted medication

And you'll never learn -

And the scars from the trial

Are just another indication

That you'll never learn

No No know you're never never gonna learn

No No never
