

# Halo, Echoes

What the hell is that behind me  
I heard a noise, I think it might be  
You again, you're always in  
The dark inside my head

You can't see me,  
I'm already gone  
My silent echoes  
Echo on

Every night I wake up shaking  
Loving you is dislocating  
Can't you see you frighten me  
With eyes of green and red

You can't see me  
I'm already gone  
My silent echoes  
Echo on

Now come on, and I will  
'Cos I like the thrill  
Now come on, and you do  
I still love you

You can't see me  
I'm already gone  
My silent echoes  
Echo on

Nothing scares me  
Quite like you do.....
