

Halo Friendlies, Disappear

renegade speeds liberate me
the asphalt melts
my blood is seething
let's go
the road has called and i must follow
come with me and break the cycle
let's go

let's take a ride
and put the car in overdrive
and disappear
go far away
where no one has a thing to say
about our lives

spinning wheels are spinning freely
leave the suburbs
for the city lights are calling us in
and speed so fast we'll get so dizzy
and celebrate our new beginning
three, two, one, and go
