

# Halo Friendlies, Look Around

look around what you see is what you get in this life  
4am city slumber city sighs (hear the cries)  
and look around what i see is what i got  
wasted years wasted money wasted mind  
(is this mine)

and i look around  
and i see the sight  
and i hear your voice  
and you tell me it's alright

earned it all building castles in the sand  
blew it all with problems that i had  
chasing buterflies like they carried my soul  
hunger pangs fill this empty space

a stranger's stare is stranger than friction  
on a slippery slope of life's addiction  
tv gods won't help you when you're broke  
hell's angels love to see you broken
