

# Halou, Dog Dreams

Dark girl sits innocent  
Caged songs sing in her head  
Sweet breeze blows, it's springtime  
Dark girl stays pale inside

You're lots to look at  
Nothing to see  
You say so much  
But i can't hear  
Your eyes are green  
When i'm in blue  
And i don't care

Dark boy plays sad dark song  
Won't go out without black on  
Dark boy loves his guitar best  
Dark girl feels so jealous

And all this time she's hanging on  
She only wants to see him  
Though she feels so much for him  
He only wants to want her

Dark girl looks much like me  
She lives in my dogs dreams  
She hides her true feelings  
A million miles from me

Just give me a little time  
Give me a little space  
Help me clear my mind  
And get out of this place
