

Halou, It Was Safer When You Were Near

Don't worry, it's not your fault
I know, i saw it happen
Don't worry, don't take the blame
I would have done the same thing

Don't listen to what it says
Your mind is out to get you
And anyone would do the same
If they had to walk round in your shoes

No matter what they do
No matter what they say
Don't let them bring you down
You can't control what other people think
How could you let them bring you down
How could you know that things could
End this way
Don't you let them bring you down

Don't worry, it's not your fault

Anything could happen
And it will
