

# Halsey, The Lighthouse

[Verse 1]

From a tender age, I was cursed with rage  
Came swingin' like a fist inside a battin' cage  
I went swimmin' with the Devil at the bottom of a lake  
And he left me there by my lonesome  
He was tall and mean with venom eyes so green  
Wanted reconciliation, but my tongue was in my teeth  
I couldn't find the floor, so I was kickin' with my feet  
But they weren't there, they were stolen

[Chorus]

There is a lighthouse  
In the middle of the deep  
And I'm still stranded on the shoreline there  
And nobody hears me scream  
And I'll lure you like a landslide  
And I'll show you lovely things  
If you rescue me, but they're make-believe  
The lighthouse by the sea

[Verse 2]

I met a sailor on a ship with promise in his eyes  
He kissed me on the mouth and dug his fingers in my thighs  
But a sailor ain't a savior 'cause they only tell you lies  
So I left him there 'til the sunrise  
Well, the waves were tall and they were crashin' down  
He's layin' in the water, begging God to let him drown  
So I showed him all my teeth and then I laughed out loud  
'Cause I never wanted savin', I just wanted to be found

[Chorus]

There is a lighthouse  
In the middle of the deep  
And I'm still stranded on the shoreline there  
And nobody hears me scream  
And I'll lure you like a landslide  
And I'll show you lovely things  
If you rescue me, but they're make-believe  
The lighthouse by the sea

[Bridge]

Well, that should teach a man to mess with me  
He was never seen again and I'm still wanderin' the beach  
And I'm glad I met the Devil 'cause he showed me I was weak  
And a little piece of him is in a little piece of me

[Chorus]

There is a lighthouse  
In the middle of the deep  
And I'm still stranded on the shoreline there  
And nobody hears me scream  
And I'll lure you like a landslide  
And I'll show you lovely things  
If you rescue me, but they're make-believe  
The lighthouse by the sea

[Outro]

And the waves come crashing down  
And the waves come crashing down  
And the waves come crashing down (And the waves come crashing down)  
And the waves come crashing down (And the waves come crashing down)  
And the waves come crashing down (And the waves come crashing down)  
And the waves come crashing down (And the waves come crashing down)  
And the waves come crashing down (And the waves come crashing down)

And the waves come crashing down
