

# Hammerfall, Stronger Than All

Always standing proud, we know our time has come  
marching off to war, the crusade has just begun  
Fighting for the right to live under the sun  
we won't stop 'til they've lost and we've won

Come and fly with us, together as one we belong  
This magic of metal unites us, it's making us strong

Like an arrow we strike STRONGER THAN ALL  
heavy metal troops on the rise  
Like an arrow of might STRONGER THAN ALL  
We'll walk through fire, we're true to ourselves and our lives

History commits the oath to deal in steel  
Warriors of the Faith, to no living soul we kneel  
Born into the fold, the Templars are for real  
no one will ever bring us to heel

Come and fly with us, together as one we belong  
this magic of metal unites us, it's making us strong

Like an arrow we strike - STRONGER THAN ALL  
shooting through the air at full speed  
Like an arrow of might - STRONGER THAN ALL  
in the name of metal, defending our hopes and believes

The past and the present unites in us all,  
we stand up for our believes  
The way of the Templars is here once again,  
forever they will be free

Like an arrow we strike - STRONGER THAN ALL  
heavy metal troops on the rise  
Like an arrow of might - STRONGER THAN ALL  
We'll walk through fire, we're true to ourselves

Like an arrow we strike - STRONGER THAN ALL  
shooting through the air at full speed  
Like an arrow of might - STRONGER THAN ALL  
in the name of metal, defending our hopes and believes
