

# Hammerfall, The Metal Age

Icy water on my hands  
the roar of thunder everywhere  
I close my eyes, I realize  
I'm far away from home  
in the Twilight Zone, the shadows mourn  
Out of the night came the shining ...  
the Metal Age

Ivory towers conceal my eyes  
caught up in a long lost time  
Where no one speaks, at liberty,  
they guard their destiny  
to forge the steel, they will reveal  
out of the night came the shining ...  
the Metal Age

I'm falling into the breach  
I'm a stranger in this land, I'm falling

Standing strong, the brave and the elder  
with scars seldom forgotten, above it all  
Come with us, offering shelter  
from the icy wind that shiver  
come with us to the twilight zone, oh yeah

You're welcome to the Metal Age

Hear the bell begin to chime  
the moonlit skies burst out in flames  
The time has come, it must be done,  
let the power be unchained  
By the force within, let the war begin

Out of the night came the shining ...  
the Metal Age
