

# Hammet Melanie, Stars Fall

matters of the heart never mattered much to me  
never really understood what the matter could be -  
so i tried to think it over, take the matter in hand  
but the matter of the matter isn't one to understand  
just when i know i understand love  
sure an i know there's a big sky above  
just when i know i've made sense of it all -  
stars fall.

just when i know the location of clouds  
and i believe i'll say three words out loud  
just when i know i've made sense of it all -  
stars fall

how can a heart be for certain?  
a matter of fact, not of flirtin'  
count on love lasting forever  
sure as your count on the weather  
just when i think i'm a fool to let go  
i won't fall for you - i won't let my heart show  
just when i've settled the matter once and all -  
stars fall  
stars fall.
