

Hancock Herbie, Can't Hide Your Love

Verse 1

No matter where you go, I'm right behind
There ain't a secret place that I can't find
If you look in your heart of hearts, you'll find me there
I've been there from the start and I ain't goin' nowhere

Chorus

You can't hide your love away from me
It's your destiny, don't you see
You can't hide your love away from me
You're a part of me, gotta be

Verse 2

You say you're on the run, well so am I
You're not the only one who's ever tried
If your heart leads the way, there's no reason to pretend
I got my mind made up, I'll get you in the end

Chorus

You can't hide your love away from me
It's your destiny, don't you see
You can't hide your love away from me
You're a part of me, gotta be

Bridge

Baby when you're close to me
I am lost in my fantasy
Oh my love, when you touch me, burn me
I feel the fire... I feel the fire

Chorus

You can't hide your love away from me
It's your destiny, don't you see
You can't hide your love away from me
You're a part of me, gotta be
