

# Hands On Approach, Silent Speech

Hey boy, what is the word for love?  
That one day will be unheard

Hey man, what is the word for hate?  
If you look, it's written on your face  
Better days, don't wait to come  
They are only words when they are gone

Silence speaks so loud inside our heads  
Makes words brighter inside our heads  
Maybe one day you'll get somehow  
Silence is love...

I'm wasting time saying no, words are so clear  
I'm feeling good I don't know  
Surely it's fear...

Maybe  
Words don't mean nothing to me at all

Silence speaks so loud inside our heads  
Makes words brighter inside our heads  
It's easy when you hear the song  
And know what really matters  
Silence is love...

Words are insane, they don't seem to fit  
More than just words, I say it like this  
Ahh, ahh, ahh...
