

Handsome Furs, Dead And Rural

I will return there
I will return there
to a deal and rural town
to a dead and rural town

i got friends there
i have some friends there
wheels just spinning in the ground
wheels just spinning in the ground

there is light there
there's some light there
it ruminates with history
there's friends all around

hungry hearts there
hungry hearts there
beating life, repeating sound
beating life, repeating sound

there's emotion in the eye
then a color in the sky
there's no worry to be found
beating life, repeating sound

living in a safe, drop and roll
living in a safe, drop and roll
living in a safe, drop and roll
living in a safe, drop and roll
living in a safe, drop and roll
living in a safe, drop and roll
living in a safe, drop and roll
living in a safe, drop and roll
