

Hangnail, Helpless On My Own

How could I get by without you
Why was I depending
On myself to get me through
I really don't deserve a second chance
I know you'll give it to me
All I have to do is ask

(Chorus)

Without your mercy I am nothing
Humble me and help me understand
Your love has always been unending
And I will always love you to the end
(End Chorus)

How could I forget who you are
And limit you to something
Less than who you really are
Placing trust into my own strength
Has never brought me closer
It just keeps me far away

(Repeat Chorus)

(Bridge)

It seems like every time
I try to do things on my own
You let me know
That you've got something better for me
In my hardest times
I look to you to take control
You're always there
I know that you're right beside me
(End Bridge)

(Repeat Bridge)

(Repeat Chorus)
